Dear Hiring Manager,

I am writing to express my interest in the Associate Software Engineer position at your company, as advertised. With a Bachelor's degree in BSc (Hons) in Information Technology specializing in Information Technology from Sri Lanka Institute of Information Technology (SLIIT) and hands-on experience gained through internships at iTerminal Technologies and Panaceata, I am confident in my ability to contribute effectively to your team and drive software development initiatives forward.

During my time at iTerminal Technologies, I had the opportunity to immerse myself in the world of Quality Assurance, where I honed my skills in testing methodologies, bug tracking, and ensuring software quality. This experience provided me with a solid foundation in understanding the importance of meticulous attention to detail and the ability to collaborate closely with developers to enhance product reliability.

Subsequently, my internship at Panaceata exposed me to the fast-paced environment of software engineering. Working alongside seasoned professionals, I participated in the full software development lifecycle, from requirements gathering to deployment. This hands-on experience allowed me to strengthen my proficiency in programming languages such as Angular, SQL, AWS, Azure and etc., while also developing a keen understanding of software design principles and best practices.

What excites me most about the opportunity at your company is the chance to further expand my skills and contribute to innovative projects. I am particularly drawn to your company's commitment to their employees and new technologies, and I am eager to be a part of a team that values continuous learning and collaboration.

In addition to my technical skills, I bring strong communication skills, a passion for problem-solving, and a dedication to delivering high-quality solutions on time. I am confident that my background and enthusiasm make me a strong fit for the Associate Software Engineer role.

Thank you for considering my application. I am eager to discuss how my experiences align with the needs of your team further. I am available at your earliest convenience for an interview and can be reached at +94 76 900 8718 or via email at udeepaDG@gmail.com.

Warm regards,

Udeepa Desarana Ginigaddara.
